

# POWER GUARDIAN 1-PH UPS MONITORING SOFTWARE

available for **MAC** and **MICROSOFT  
WINDOWS**

Borri Power Guardian is a **free user-friendly** UPS software, providing monitoring of the UPS status and automatic safe system shutdown during power outages.

## Features and benefits

- Fast, easy installation and configuration via USB or RS232 even for first-time users.
- Automatic orderly application and system shutdown.
- Preventing potential data corruption and hardware damage.
- Alerts on main power failures and system shutdowns notification via SMS and email.
- Automatic self-test of UPS and battery status ensuring early detection of anomalies.
- UPS parameters and power status at a glance. It summarizes graphically and numerically power problems such as blackouts or electrical noise over time and UPS information such as input and output voltage, frequency, temperature, loads and battery capacity.
- Customised settings for tailor-made solutions.
- Available for MAC and Microsoft Windows operating systems (complete list at [www.borri.it/download](http://www.borri.it/download)).
- Download Borri Power Guardian free software at [www.borri.it/download](http://www.borri.it/download).
